Education

University of Pittsburgh **3.9 GPA, Summa Cum Laude**

Dual Bachelor of Science: Digital Narrative and Interactive Design & Computer Science *Aug. 2021 – May 2025*

- **Minors:** Studio Arts, Film and Media Studies.
- **Relevant Coursework:** Data Structures & Algorithms I–II, Operating Systems, Technical UI Development, Computer Organization & Assembly, ***Color Theory***, Systems Software, Principles of Contextual Design, ***Animation Studies***, Game Studies, Team Project Design & Implementation, Software Engineering, Software Quality Assurance.

Experience

Software Engineer (Enterprise Tooling) Pittsburgh, PA

PNC Bank *Aug. 2026 - Present*

- Validating new features & vulnerability remediations for QA automation tools while solving issues across enterprise workflows.
- Troubleshooting developer questions, integration issues across ***6*** testing & validation tools, utilized by ***2,250+*** applications.
- Facilitating technical discussions between tools & quarterly planning with ***7*** enterprise technology teams, ***57*** team members.
- Mentoring contractor software developers through technical guidance, troubleshooting, & collaborative development.

Technology Development Program Analyst (Software Engineering Track) Pittsburgh, PA

PNC Bank *Aug. 2025 - Aug. 2026*

- Built entire frontend for a log onboarding automation tool, reducing manual work by up to ***78 hrs/week***.
- Led stakeholder interviews to define MVP requirements; co-facilitated alignment meetings with engineers & managers.
- Delivered workflow analyses & sprint demos; presented to the CIO, secured approval for continued development.
- Collaborated with managers to obtain progress across teams; facilitated ***5*** sprints, created ***500+*** stories & epics for the team.

Instructor (Premiere Pro & Unreal) Pittsburgh, PA

iD Tech *June 2024 - Oct. 2024*

- Coached students on real-time asset pipelines, scripting, & iterative debugging in Unreal Engine, Premiere Pro, & other coding.
- Taught concise, exciting, weekly courses: implemented project-based, gradual release learning; ***90%*** management approval.
- Part of two camp managements, traveled to assist in low-staffed location; ***95%*** student & parent satisfaction in weekly surveys.

Game Artist Generalist (Unity 2D, 3D, & AR / Rigging & VFX) Pittsburgh, PA

Simcoach Games *Aug. 2022 – Feb. 2024*

- Built modular, reusable assets to accelerate scene construction, live iteration, & cross-project development.
- Integrated & troubleshot assets in Unity, resolving issues across materials, rigs, UVs, animations, & VFX.
- Modeled, modified, UV-mapped, textured, rigged, animated 3D; rig-based, frame-by-frame 2D character, item animations.
- Resolved rig inconsistencies & improved naming, file, and source-of-truth conventions to streamline production workflows.
- Collaborated with designers to concept characters, environments, interaction animations, VFX, & UI across multiple projects.
- Credited in ***10+*** 2D, 3D, & AR projects, including published titles Simcoach Card Deck & Cash Skills Collection.

Game Artist Intern (2D Concept & Character Art) Pittsburgh, PA

Simcoach Games *May 2022 – Aug. 2022*

- Created 2D art for Next Stop, later expanded into First Stop: Pettsburgh, from concept through release in 3 months.
- Owned character art from initial concepts through finalized reactions via iterative refinement; earned ***93%*** lead satisfaction.
- Created ***17*** illustrated splash-art postcards for level selection & end-of-level screens; created VFX animations for project.

Leadership & Awards

Games4SocialImpact | **Art Mentor** | Mentored teams, judged, admin, reveal game creation, & led art panel. Oct. 2025, Nov. '26

Surreality Lab | **UX Research Lead** | Joined medical & technical expertise in AR for the surgical theater. Oct. 2024 – May 2025

SteelHacks XI | **Best Data Observability** | Created *Pittsburgh Event Finder*, an AI-powered search engine for local events. Sept. 2024

Games4SocialImpact | **Judge's & 2x Jammer's Award** | For *CrunchTime!*, *Immorticulture*, & *Private Collection*. Oct. 2022, '23, '24

Technical Skills

Engines & Digital Content Creation Tools: Unity Engine, Unreal Engine, Godot Engine, ***Maya***, 3ds Max, ***Blender***, Houdini.
Programming Languages: C#, C++, C, ***HLSL***, ***Python***, Java, HTML, CSS, JavaScript, TypeScript.
Pipelines & Tools: Asset Pipeline Design, Modular Asset Workflows, Agile/Scrum Production Workflows, ***Git***, ***Perforce***.
Rendering & VFX: Unreal Material Graph, ***Niagara Particle Systems***, HLSL Shaders, ***Real-Time VFX***.
Media Tools: ToonBoom, Procreate, Aesprite, ***Adobe Creative Cloud:*** Animate, Premiere Pro, Substance Painter, Photoshop, Illustrator.
